

SALVATION ARMY DRIVE SOON

RESUME OF WILSON'S ADDRESS CONGRESS ON FOOD HOARDING

He Promises Food Hoards Will be Forced Out of Hands of Holders

President Calls Some of Present Prices Criminal, Asks More Drastic Laws

Washington, Aug. 8.—Addressing congress today and proposing remedies to check the high cost of living, President Wilson declared that high prices were not justified by shortage of supplies, present or prospective, but were created in many cases "artificially and deliberately" by "vicious practices." The president recommended that the food control act be extended to peacetime operation and that congress exclude from interstate as well as intrastate shipment goods which did not comply with its provisions.

Penalty for Profiteers.
The president also recommended that the food law be provided with a substantial penalty for profiteering and that a cold storage law be enacted modeled after the law in New Jersey, by which a time limit is placed on cold storage. He also recommended that all goods released from cold storage be marked with the price prevailing when they went into storage. He further recommended that goods in interstate commerce be marked with the price at which they left the producer. It would serve as a useful example, the president suggested, if congress should enact legislation to control the situation in the District of Columbia, where it has unlimited authority.

Licensing System Asked.
Further, the president recommended a federal licensing system for corporations engaged in interstate commerce which would embody regulations to insure competitive selling "and prevent unconscionable profits in the method of marketing." He also urged prompt passage of the law pending to control security issues.

Making an appeal for the ratification of the peace treaty to turn the country from a war basis, the president said:

"There can be no peace prices so long as our financial and economic system is on a war basis."

"A process has set in," the president told congress, "which is likely, unless something is done, to push prices and rents and the whole cost of living higher and yet higher in a vicious cycle with which there is no logical or natural end."

New Laws Asked.
"Some of the methods by which these prices are produced are already illegal. Some of them are criminal and those who employ them will be energetically proceeded against; but others have not yet been brought under the law and should be dealt with at once by legislation."

To Force Out Hoarded Food.
Surplus stocks of food and clothing in the hands of the government, the president said, would be sold and boards of food in private hands would be forced out under the existing provisions of the food control law.

Dealers eager to reap a harvest of rising prices who had accumulated hoards, the president said, would now "see the disadvantage as well as

the danger of holding off from the new processes of distribution."

The normal operation of the laws of supply and demand, the president said, had been set at naught in the cases of many necessary commodities. He cited the figures of the Federal Trades commission, showing rising prices in the face of greater stocks of food than were on hand in the country a year ago.

The pending bill to regulate securities issue, the president referred to as a measure which "would do much to stop speculation and to prevent the fraudulent methods of promotion by which our people are annually fleeced of many millions of hard earned money."

Asks for Economy, Too.
Beside asking for the remedies he proposed, the president called on congress and the public to deal with the subject deliberately. He appealed to merchants and others to deal fairly with the people and to housewives to exercise "a greater vigilance, a more thoughtful economy."

Leaders of organized labor, the president said he was sure, "will presently yield to a sober second thought and like the great mass of their associates, think and act like Americans."

The president warned congress, however, that no complete and immediate remedy was to be found in legislation or immediate action. Processes of supply and demand would not operate of themselves while the country was neither at peace nor war, he said.

"Where there is no peace of mind there can be no energy of endeavor," said he. "Politically, socially, economically, the world is on the operating table and it has not been possible to administer any anaesthetic."

Speaking of retail prices, the president said:

"There can be no little doubt that retailers are in part—sometimes in large part—responsible for exorbitant prices."

It was practicable, the president said, to supply the public through established governmental agencies and through publicity with information on which it might judge what profits should be. Congress should provide necessary funds for these agencies, the president said.

The world, of course, the president reminded congress, must pay for the vast wastage of the war and take the results of food fields turned to battle grounds. At the same time it must help Europe back to her normal state, he added.

"We, and we almost alone, hold the world steady," said the president. "It is in this supreme crisis—this crisis for all mankind—that America must prove her metal."

Strikes Wrong Remedy.
Under such conditions, the president said, would only make matters worse, and he expressed his confidence that all labor men would realize it.

"No remedy is possible while men are in a temper," said the president, "and there can be no settlement which does not take as its basis and standard the national interest."

Roumanians Will Evacuate Budapest
London, Aug. 9.—The Roumanian commander in chief of Budapest intends to evacuate most of Roumanian troops within a few days the dispatches advised by way of Copenhagen today.

The decision was reached because of the allies' attitude it was stated. According to a dispatch from Budapest the government of Arch Duke Joseph will be endorsed in the coming Hungarian election.

ETHELBERT STEWART

Ethelbert Stewart, director of investigations and inspections of the department of labor, has been appointed delegate to London at a conference to plan an international peace labor conference to be held in Washington.

Indianapolis Shopmen Forcibly Decline to Resume Work

(By United Press)

Indianapolis, Ind., Aug. 9.—F. S. Galloway, chairman of the striking committee of railroad shopmen announced this afternoon that he had sent a telegram to the national union headquarters at Cleveland stating "Go to Hell." The telegram was in reply to the request of headquarters that six thousand shopmen return to work pending settlement of the wage dispute in Washington. Galloway said he had returned the strike ballots unopened received from headquarters.

FASTEST TRANSCONTINENTAL TRAIN IN THE WORLD FOR THE BUSINESS-MAN-IN-A-HURRY

Now that the era of reconstruction is here, the business man, who has been taxed to the limit, bought bonds to his capacity and given until it hurts is to be considered again. He is to be permitted to get from place to place quickly, his freight is to be handled promptly and he is to be given every assistance to revitalize the business of America. The railways are the veins and arteries upon which a healthy business body must depend, therefore normally much of his help must come from them.

The Canadian Pacific, which has been under private control during the whole four years of war and the six months of readjustment, is the first of the railroads to help the business man.

On June 1st the first "Trans-Canada" the new transcontinental express of the C. P. R.—pulled out of the Windsor St. Station in Montreal filled to capacity on its three thousand mile run to Vancouver.

This is the fastest transcontinental train in the world, making the trip from Montreal to Vancouver in less than four days, to be exact, 93 hours and 30 minutes, and from Vancouver to Montreal in 12 hours 15 minutes, the run being made without change of cars.

A whole business day is thus saved for the Business-Man-in-a-Hurry. An interesting point in connection with this train is the fact that more than half of the passengers are generally registered from New York, Philadelphia, Boston and other American cities, a considerable number being booked for Banff, Lake Louise and points west.

One thinks of a transcontinental train as a single unit, but in reality it is made up of a number of complete units. A daily service, the trip being four days, requires four trains running each way simultaneously. The equipment of the new deluxe train has an estimated value of \$6,000,000, using for the daily run eastbound and westbound, 59 sleeping cars, 6 compartment cars, 15 diners and 24 locomotives.

Miss Signe Saunders of Brainerd Salvation Army to Aid in the County Drive for Funds

RANK OF CAPTAIN IN "ARMY"

Was a "Little Mother," Doughnut Girl, Hospital Help to the Soldiers of A. E. F.

The original "Doughnut Girl," Miss Signe Saunders, Brainerd Salvation Army lassie, is home after sixteen months service with the American Expeditionary Forces as doughnut girl, hospital help, and "little mother" to the American doughboys who were near her hut. She will aid in the Crow Wing county campaign for the Salvation Army which opens August 10 and continues to August 18.

Rank of Captain.

Miss Saunders, who has the rank of captain in the Salvation Army, passed through Minneapolis recently and received a hearty ovation from the folks at headquarters there. Brainerd friends noted that her overseas uniform bears two gold service stripes and an Army of Occupation chevron on her sleeve. She tells of living in dugouts near the front line trenches, in billets recently occupied by German officers, and in cellars where the rats and mice had to be driven out with the nearest handy weapon, usually a gas mask or a helmet.

Left Brainerd Oct., 1917.

Capt. Signe Saunders left Brainerd October, 1917, and spent four months at Camp Logan, Houston, Texas, where she worked in a Salvation Army hut at the training camp. She went overseas to France in March, 1918, and landed at Bordeaux. She was transferred to the Toul sector where she and Miss Myrtle Turkington of South Manchester, Conn., had charge of a canteen and hut. The hut was a large tent capable of holding 150 to 200 men and was used as a rest room and canteen.

Doughnuts and Pies.

Capt. Saunders baked from 1,000 to 1,500 doughnuts per day and each baking lasted about half an hour when the men formed in line to eat them. She also baked apple, raisin.

John D. Rockefeller recently celebrated his eightieth birthday.

REPRESENTATIVES OF 14 RAILWAY UNIONS ISSUE APPEAL TO THE PUBLIC

(By United Press)

Washington, Aug. 9.—With striking shopmen coming to their jobs and Director Hines preparing to hear the wage proposition of the employees next week, representatives of fourteen railway unions today issued an appeal to the people to begin their demand for more pay. This appeal denied that any violent threat was contemplated by laborers when they asked congress to adopt nationalization of the railroads.

President Wilson in a message to congress with regard to the labor situation was "there must be no threats." The fourteen union heads stated they were asking for "Americanization of the railroads."

CONGRESS TO CONSIDER LEGISLATION TO CARRY OUT PRESIDENT'S ADVICE

To Reduce High Cost of Living, and Supply All Money Needed to Pay Cost

Government Will Take Over All Hoarded Food

And Re-establish the Law of Supply and Demand, Department of Justice Announces

(By United Press)

Washington, Aug. 9.—Hoarded food stock will be taken over by the government and placed upon the market to help re-establish the law of supply and demand, the department of justice made known today. Preparations for this work is now well under way. This is Attorney General Palmer's country-wide campaign against profiteers.

Palmer was today expecting news from district attorneys who have been flooding him with telegrams concerning evidence they will collect. Evidence is being put into shape for presentation to the Chicago federal grand jury. Government experts will prepare cases of violation of the anti-trust laws by big packers to be submitted to the jury.

Twin City Shopmen to be Urged Today by Leader to Resume Work

Machinists' International Officer, Returned From Capital, to Talk at Mass Meeting in the Auditorium

(St. Paul Pioneer Press)

In an effort to speed up settlement of their wage problem at Washington, Rudolph A. Henning, international officer of the machinists' union who returned from the capital yesterday, will go before a mass meeting of striking railroad shopmen at the Auditorium at 2 P. M. today and recommend that the men go back to work.

Mr. Henning also will address a mass meeting of Minneapolis shopmen that will be held in the open air following a parade of thousands of railroad workers at 7 P. M.

The international officer is from Washington, where he has been assisting in the negotiations going on there relative to the wage question, and will explain in detail to the workers of the Twin Cities who are out on a strike just what the situation is.

"I will make a recommendation that the men go back to work," said Mr. Henning last night.

President Wilson's statement concerning the railway men's unrest carries a guarantee that there will be prompt action if the shopmen return to work—action across a table direct between officials of the Federal railroad administration and authorized representatives of the railway shopmen.

Return to Work

Yardmaster Lowe received a message this afternoon from Supt. Y. T. Lowry of Minneapolis, that the carmen at Mississippi street, all go back to work, tonight.

Shopmen Returning to Work on 2 Roads

Minneapolis, Minn., Aug. 9.—1500 men at Kansas City voted to return to work Saturday. 325 men have returned to work at various points on the Chicago, Milwaukee & St. Paul and 125 men at various points on the Chicago & Northwestern.

Will Extend Lever Food Control Act if That is Believed Essential

BY L. C. MARTIN, (United Press Staff Correspondent)

Washington, Aug. 9.—Congress will begin at once consideration of legislation to carry out, in part at least, President Wilson's recommendation for reducing the high cost of living house and senate leaders promised today.

Rep. Mondell, majority leader of the House, said today any request for money to carry on the campaign to prosecute the profiteers would be complied with. Congress will supply all the money that is needed. He has no opposition to extending the Lever food control act if that is believed essential. Senator Lodge, one of the leaders of the Senate, said: "I should think the president would make suggestions in regard to the artificial and extortionate prices in necessities of living, and I am sure that congress will deal with them at once."

Comments from men of both parties today showed that some of President Wilson's suggestions regarding legislation met with general approval and that his statement against labor strikes as a means of enforcing demands was endorsed as was his appeal for ratification of the treaty.

Farmers Launch Campaign to Repeal Wheat Guarantee

(By United Press)

Washington, Aug. 9.—The campaign for the repeal of the \$2.26 wheat guarantee will be launched by Representatives and Senators from wheat belt states, it was believed here today.

Members of Congress and representatives of farmers organizations told the Senate Agricultural Committee that the guarantee is not an advantage but a detriment to the farmers, and argued for its repeal. Action by the committee was deferred.

T. C. Atkeson, Washington representative of National Grange, declared the public is misled by the guarantee.

Senator Gronna promised a statement of the wheat situation and declared he will introduce a bill for the repeal of the guarantee.

Treaty Papers Sent to Senate

Washington, Aug. 9.—President Wilson's reply to various senate requests asking information about papers covering the peace treaty will be sent from the White House Monday. Some of the papers requested by the Senate to be used in their consideration of the treaty will be included, but not all, as some are not obtainable in this country.

Packing Houses Operate 60 Per Cent

Chicago, Aug. 9.—Packing houses in operation today is about 60% officials said, because of strikes, they said however that the strike is broken and that the men will return to work Monday.

Not over ten thousand were out, but reports later said that the total was thirty thousand.

WASHINGTON ADVICES
SAY MEN ARE RETURN-
ING TO WORKS

(By United Press)
Washington, Aug. 9.—The
railway shopmen who struck
without being authorized will
go back to work in response to
President Wilson's declaration
that he would not consider
their wage demand until they
are back at their jobs.

The railway department of
the American Federation of La-
bor today received telegrams
indicating that all the men
would be back to work by
Monday. The shopmen want a
25 per cent wage increase.
Wage demand of railway em-
ployes may be submitted with
theirs. *****

Army Worm Appears in State

(By United Press)

St. Paul, Aug. 9.—An army worm
has made its appearance in Minne-
sota. Emergency calls have been
received by Wm. A. Railey, head of
the division of entomology, of the
Minnesota experiment station, from
Red Wing, Rochester and Zumbrota,
in the southern part of the state and
Mora and Moose Lake in the north-
ern part.

Wm. C. Cook, expert, in company
with county agents and other offi-
cials, is in Goodhue and Olmstead
counties.

Much damage has been done in
the vicinity of Mora according to
Wm. Cook. Entire fields of millet
and other foreign crops have been
swept clean. Grains of various
kinds and beans and peas have been
destroyed.

Special Legislative Session Called for September 8

(By United Press)

St. Paul, Aug. 9.—Minnesota legis-
lature may be called in an extra ses-
sion September 8, Gov. J. A. Burn-
quist said today that this will prob-
ably be the earliest date that can
be fixed for calling the session.

The governor fixed this date after
being advised by the attorney gen-
eral's department that it has no pow-
er to authorize indebtedness for the
purpose of preventing forest fires, in
the opinion of C. Louis Wicks, deputy
attorney general.

Army Food Sale Begins Aug. 18

(By United Press)

Washington, Aug. 9.—Sales of
food to be held by the war depart-
ment will begin Aug. 18, it has been
announced. Prices formed by the
department will be f. o. b. warehouse
and additional charges will be made
by the postoffice department for par-
cel post. The food is now being dis-
tributed to postal zones in amounts
proportioned in order to give equal
contributions. No sales will be made
direct to consumers.

Packers to Get First Attention of Food Prosecutors

(By United Press)

Chicago, Aug. 9.—The packers will
be given first attention by several
prosecutors here in the war on high
cost of living, according to District
Attorney Chas. S. Clyne, who just re-
turned from Washington.

The trial may not be held in Chi-
cago. Hunting out the packers has
been planned in a dozen or more cit-
ies. Wherever evidence appears
strong, Clyne declared, there action
will be taken.

Discontinue 102 Trains

New Haven, Aug. 7.—The discon-
tinuance of 102 passenger trains on
the New York, New Haven & Hart-
ford railroad because of the strike of
shopmen and mechanics was an-
nounced at the local offices of the
railroad late tonight. All dining
and parlor car service is disconti-
nued and the present time table is
suspended.

WOMAN'S REALM

AESTHETIC MODERN
DANCES TAUGHT

Miss Marie Clark, Student of Chalf School of Dramatic Art, New York, to Teach in Brainerd

CLASSES FOR A MONTH ONLY

Many Young People Joining, Teaching by Appointment or in Class work Sought

Aesthetic, modern dances are to be taught in Brainerd by Miss Marie Clark, daughter of Mr. and Mrs. D. M. Clark. Miss Clark recently returned from New York city where she has been attending the Chalf school of dramatic art and dancing.

For a month she will teach in Brainerd and then return to New York. Instructions will be given by appointment or in classes and already many have signified their intentions of becoming pupils.

Engagement Announced

Mrs. Charles W. Mahlum entertained Friday evening in compliment to her sister, Miss Isabelle Lydon. During the evening a "cablegram" was received from their parents who are visiting in London, England, which read, "Mr. and Mrs. Arthur James Lydon announce the engagement of their daughter, Isabelle Carlotta, to Mr. Adolph G. Hauge of Wolf Point, Montana. The wedding will take place in September." Mrs. James Alderman assisted the hosts in serving a lap luncheon. There were twelve guests.

Surprise Party

Mrs. A. K. Fasth, soon to leave for her new home in Tacoma, Wash., where her husband is employed by the Northern Pacific railway, was given a surprise party by the Ladies Aid society of the Swedish Lutheran church.

Mrs. Gyllenhammer spoke of the life and work of Mrs. Fasth in Brainerd, the faithful and loyal co-operation she had given the church, always ending a helping hand.

For Mrs. A. K. Fasth

Mrs. August Swanson entertained Wednesday in honor of Mrs. A. K. Fasth who will leave for Tacoma, Wash., soon. Those present were Mrs. Frank E. Little, Mrs. L. Broman, Mrs. Frank Fredstrom, Mrs. S. A. Lindberg, Mrs. M. J. Reis, Mrs. J. Dillan, Mrs. C. A. Nelson, Mrs. S. Saxrud, Mrs. A. Boltz, Mrs. John Johnson and Mrs. Emma Wilson.

WITNESS AFTER WITNESS IN
BRAINERD

Such Evidence Our Readers Cannot Dispute

As we take up the Dispatch week by week, we are struck by the hearty, unmistakable way in which witness after witness speaks out as Mr. Bunnell does here. If these people were strangers living miles away, we might take little notice of them. But they are not. They are our neighbors, living among us. Their word is too easily proven to admit of any doubt. They speak out in the hope that their experience may be a guide to others.

I. E. Bunnell, carpenter, Brainerd, says: "I can certainly say Doan's Kidney Pills are as advertised. I have used them whenever my kidneys have been acting irregularly and they have always done good work. Sometimes my back has been lame and I haven't been able to get around and do my work. Sharp pains have caught me in my left hip and across my back. My kidneys haven't acted freely and the secretions have been burning. I have always used Doan's Kidney Pills when these attacks have come on and they have soon had me feeling all right."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Bunnell had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

EMISSARY OF SATAN SPEAKS

Sworn Foe of Industrial Content, the Rumor Monger, Glories in Fomenting Social Unrest.

I am the Rumor Monger.

Borne on the winds of Hades from the halls of his Satanic Majesty, I wander among you credulous mortals and spread dissension.

Suspicion and envy are my bodyguards, and I am the sworn enemy of Industrial Content.

From North to South, and from East to West, I carry my whisperings to the ears of the workers, and I revel in hellish delight in the social unrest that I bring about.

I am the devoted follower of Ananias, and oh, how I hate the Truth! I delight in fanning the red flames of Anarchy with the seeds of Malcontent.

My propaganda is conceived in restless minds and given shape and life by fertile imaginations. Veracity and facts are strangers to me, and I seek only the ears of the impressionable sons of Adam. Sometimes I almost blush at the ease with which I arouse their suspicions through my airy vaporings, and I am forced to admit that a thrill of pride runs through me from the tips of my pointed ears to the end of my tail.

Whenever I begin operations production immediately slackens, for my limbs are indefatigable in their efforts to obstruct.

After the first injection of my serum willing muscles lose their pep, and a frown replaces the smile of contentment.

My campaign thus far in the world has been fairly successful, and if the workers who are possessed with common sense and wisdom do not expose my methods I expect to be decorated upon my return with the Medal of Dissension and Legion of Untruth by His Satanic Majesty, the King of Hades, the last ruling survivor of the House of Beelzebub.—Speed Up, the magazine of the Submarine Boat corporation, Newark shipyard.

To Prevent Beriberi.

Two thousand physicians assembled at the Imperial university in Kyoto recently to hear Dr. Shimazono lecture on beriberi, the cause of which is most disputed among medical authorities. The disease is not contagious, and its chief cause is eating pure rice, although the doctor disbelieves the theory that rice ever causes blood poisoning.

The speaker said that if rice is taken into the body along with other foods there is less danger of beriberi. He cited the cases of prisoners, factory hands, Buddhist monks and others, who ate much wheat mixed with rice. Buddhist monks eat ten or twenty times as much other food as rice, and rarely suffer from the disease. Among the factory hands of the Keijio iron foundry of the Mitsubishi company 450 of the 2,000 Japanese suffered from beriberi because they ate pure rice, while only 9 of 3,000 Koreans suffered from the disease presumably because they ate millet and beans.

Doctor Shimazono advised the eating of wheat with rice, in the ratio of six parts of rice to four parts of wheat. This will create a market for the shipment to Japan or larger quantities of wheat from Oregon and Washington.—East and West.

Sufficient Unto Themselves.

United States marines who have hobbled with Filipino headhunters and have long been friendly with the Chamorros of Guam, met their Waterloo when they tried to establish the entente cordiale with the Cha-Chas of the Virgin Islands.

According to the marines the Cha-Chas are "poor mixers." They live on the west side of the harbor of Charlotte-Amalie, decline to mingle or intermarry with the negroes, and resent any outside interference with their affairs. They are the hardest drinkers and best workers on the island, their industry bringing them a good living as fishermen and weavers of straw hats. The tribe is said to have come originally from the Dutch and French Leeward Islands.

So far the marines have taken only long distance observations of the Cha-Chas. For while the tribe is not hostile, its members indicate that they want to be left alone.

1,068,932 DIED
IN U.S. IN 1917

Heart Disease, Pneumonia, Tuberculosis, Chief Causes.

INFLUENZA HEADS EPIDEMICS

Census Bureau's Compilation of Mortality Statistics Made Public—Death Rate From Heart Disease Shows Noticeable Decrease as Compared With 1916—Next to Influenza Highest Death Rate From Epidemic Disease Was Diphtheria.

The census bureau's annual compilation of mortality statistics for the death-registration area in continental United States shows 1,068,932 deaths as having occurred in this area in 1917, representing a rate of 14.2 per 1,000 of population.

Of deaths, nearly one-third were due to three causes—heart disease, pneumonia and tuberculosis—and nearly another third resulted from the following nine causes: Bright's disease and nephritis, apoplexy, cancer, marasmus and enteritis, arterial diseases, influenza, diabetes, diphtheria and bronchitis. The death-registration area of the United States in 1917 comprised 27 states, the district of Columbia and 47 cities in non-registration states, with a total estimated population of 75,000,000, or about 73 per cent of the estimated population of the United States.

Fewer Die of Heart Disease.

The deaths from heart disease (organic diseases of the heart and endocarditis) numbers 115,337, or 13.2 per 100,000 population. The death rate from this cause shows a noticeable decrease as compared with 1916, when it was 15.94 per 100,000. There have been fluctuations from year to year, but in general there has been a marked increase since 1900, the earliest year for which the annual mortality statistics were published, when the rate for heart disease was only 12.31 per 100,000.

Pneumonia (including broncho-pneumonia) was responsible for 112,881 deaths, or 14.93 per 100,000. This rate, although much lower than that for 1900 (180.5) or for several succeeding years, is higher than that for any year during the period 1908-1916. The lowest recorded rate for pneumonia was 12.7 per 100,000 in 1914. The mortality from this disease has fluctuated considerably from year to year since 1900, the general tendency having been downward until 1914 and upward from 1914 to 1917.

Tuberculosis in its various forms caused 110,285 deaths, of which 97,047 were due to tuberculosis of the lungs. The death rate from all forms of tuberculosis was 14.64 per 100,000, and from tuberculosis of the lungs 12.89. The rate from tuberculosis of all forms declined continuously from 200.7 per 100,000 in 1904 to 14.16 per 100,000 in 1916, the decrease amounting to nearly 30 per cent; but for 1917 an increase is shown. Until 1912 more deaths were due to tuberculosis than to any other single cause, but in that year and during the period 1914-1917 the mortality from tuberculosis was less than that from heart diseases, and in 1917 it fell below that from pneumonia also.

Cancer Fatalities Greater.

Cancer and other malignant tumors caused 61,452 deaths, of which number 23,413, or 38 per cent, resulted from cancer of the stomach and liver. The rate from cancer has risen from 63 per 100,000 in 1900 to 81.6 in 1917. The increase has not been continuous, there having been three years—1906, 1911 and 1917—which showed declines as compared with the years immediately preceding. The decrease in 1917, as compared with 1916, however, was very slight—from 81.6 to 81.6. It should be borne in mind that at least a part of the increase in the death rate from cancer may be apparent rather than real, being due to a greater degree of accuracy in diagnosis and to greater care on the part of physicians in making reports to registration officials.

Influenza was responsible for 12,974 deaths, or 17.2 per 100,000. This rate is the highest shown for any epidemic disease in 1917, but is much lower than the corresponding one for the preceding year, 26.4 per 100,000. The influenza rate, which fluctuates greatly, was highest in 1901, when it stood at 32.2, than in any subsequent year prior to the occurrence of the recent epidemic. Next to that for influenza, the highest rate appearing for any epidemic disease in 1917 was for diphtheria, 14.5 per 100,000, representing 12,453 deaths. The rate from this disease was somewhat higher in 1917 than in the preceding year, when it stood at 14.5 per 100,000.

1 Bronchitis caused 12,311 deaths, or 16.3 per 100,000. This rate is lower than that for any preceding year except 1916, when it was 16.0. The proportional decline from 1900, for which year the bronchitis rate was 45.7, to 1917, amounting to 64 per cent, was greater than that shown for any other important cause of death.

Typhoid fever resulted in 10,113 deaths, or 13.4 per 100,000. The mortality rate from this cause also has shown a remarkable reduction since 1900, when it was 35.9, the proportional decrease amounting to 63 per cent. This highly gratifying decline demonstrates in a striking manner the efficiency of improved sanitation and of

MOST BEAUTIFUL OF
BEAUTIFUL WOMEN

Miss Hiram Sabbage was the winner of Daily Mirror's beauty competition among the most beautiful London social leaders at the Savage club derby day ball, at which dazzling and unique costumes were worn.

the modern method of prevention—the use of the antityphoid vaccine.

The greatest number of deaths charged to any one accidental cause—11,114, or 14.8 per 100,000—is shown for falls. The rate for this cause varies but slightly from year to year. Next to falls, the greatest number of accidental deaths—8,549, or 11.5 per 100,000—resulted from railroad accidents and injuries.

The following table shows, for the death-registration area in continental United States in 1917, the total number of deaths and the death rate, by leading causes, together with the percentage which each cause contributed to the total.

Cause	Rate per 100,000 Pct. of No. per 100,000	No. per 100,000
All causes	1,068,932	14.2
Organic diseases of the heart	115,337	13.2
Pneumonia (all forms)	112,881	14.9
Tuberculosis (all forms)	110,285	14.6
Tuberculosis of the lungs	97,047	12.9
Tuberculosis of other organs	13,238	17.5
Other forms of tuberculosis	7,146	9.5
External causes	81,353	10.8
Accidental falls	11,114	14.8
Suicide	10,656	14.4
Railroad accidents and injuries	8,549	11.5
Injuries (excluding those due to conflagrations)	6,330	8.4
Automobile accidents and injuries	6,724	8.9
Homicide	5,781	7.7
Accidental drowning	5,550	7.4
Accidental absorption of deleterious gases, except in conflagration	3,375	4.5
Mine accidents and injuries	2,623	3.5
Injuries by vehicles other than railroad cars, street cars and automobiles	2,326	3.1
Street car accidents and injuries	2,277	3.0
Machinery accidents and injuries	2,112	2.8
Effects of heat (other than burns)	1,964	2.6
Other external causes	12,572	16.7
Acute nephritis and Bright's disease	50,912	10.4
Cerebral hemorrhage (apoplexy)	62,431	8.2
Cancer	61,452	8.1
Diarrhea and enteritis	19,694	2.6
Congenital debility and malformations	56,973	7.7
Arterial diseases, atherosclerosis, aneurism, etc.	19,665	2.6
Influenza	12,974	17.2
Diabetes	12,759	16.9
Diphtheria	12,453	16.5
Bronchitis	12,311	16.3
Measles	10,745	14.3
Typhoid fever	10,113	13.4
Appendicitis and typhoid	9,429	12.5
Respiratory diseases other than pneumonia and bronchitis	9,235	12.3
Hernia and intestinal obstructions	8,677	11.5
Cirrhosis of the liver	8,559	11.4
Whooping cough	7,327	10.4
Puerperal affections other than puerperal septicaemia	7,317	9.7
Measles	6,890	9.1
Puerperal septicaemia	5,211	6.9
Rheumatism	4,456	5.9
Scarlet fever	3,141	4.2
Erysipelas	2,862	3.8
Malaria	2,287	3.0
All other defined causes	147,235	19.5
Unknown or ill-defined causes	12,610	16.1

Automobile Death Rate Grows.

Deaths from automobile accidents and injuries in 1917 totaled 6,724, or 8.9 per 100,000 population. This rate has risen rapidly from year to year, but not so rapidly as the rate of increase in the number of automobiles in use.

Deaths due to accidental asphyxiation (except in conflagrations) numbered 3,375, or 4.5 per 100,000. This rate is somewhat higher than that for any year during the preceding ten-year period.

Hot weather caused 1,964 deaths, or 2.6 per 100,000. This rate is considerably above those for most of the years covered by the bureau's records, but is somewhat lower than 2.9 in 1916 and is far below 5.3 in 1911. The rate from this cause naturally varies greatly from year to year.

Care for Sick Soldiers.

Uncle Sam will provide sanatorium and hospital care for all the boys discharged from army or naval service, so far as their sickness or disability was contracted in the service of their country. The United States public health service has already undertaken this stupendous task and is busily engaged in enlarging its hospital facilities all over the country.

BRAINERD MINN.

Fond of Chocolate?

The most popular flavor at any soda fountain in the country is undoubtedly chocolate. Few there are indeed with the superior deliciousness and heaviness of ours. For a delight in flavor that is all chocolate and chocolate always, be sure to try ours. Either plain or with cream, with ice cream or sundae or other way.

MEET AND TREAT AT OUR FOUNTAIN

Such Is Fame.
"Did you see the house where the great poet lived?"
"Uh, huh."
"And the landlord, did he have no reminiscences of the great poet?"
"None beyond the fact that the great poet moved away owing him rent."

A Fateful Series.
"I started out to have a little run over in my new motor."
"Well, what happened?"
"I ran up against the speed laws, a motor cop ran me down and then ran me in."

Does So.
"This actress says women should be pretty and men should be stalwart, even if artificial means be used."
"Well?"
"Looks like a strong boost for lip rouge and padded shoulders."

Apprehensive.
She—I tell you, the time is coming when men will no more dictate to women.
He—Good heavens! Are the stenographers going to strike?

Solved.
Wife—How do the unemployed live, John?
Husband—How? Why, most of them on incomes from their fathers' or grandfathers' estate—a few on allowances from rich wives.

JUST SO.
Woodman, spare that tree, Touch not a single bough. You see we all must be For conservation now.

Neighbors Are, Too.
"I am saddest when I sing."
And her voice rings far and high.
"I am saddest when I sing."
"So are we!" the neighbors cry.

May Run for Vice President.
Bacon—I understand he is lost to the world.
Egbert—Yes; he married a prominent suffrage leader and is always mentioned as her husband.

Question of Personal Privilege.
"Do you think profane language should be permitted on the stage?"
"Certainly," answered the gruff old stage manager; "but only during rehearsals."

Preparedness.
"Pa, when a man doubles his fists has he four hands?"
"Why, no, my son; though the action is generally a forehanded one."

The Trouble.
"Is this son of yours you are having trouble with, adolescent?"
"My, no, sir! He's just a little queer in the head."

SHARED PRIVATIONS

(Excerpt from an editorial in the Grand Forks Herald, Aug. 6.)

"The Salvation Army was merely carrying out the spirit which has always actuated it when its men and its women—God bless them—took their places side by side with the armed soldiers of their country, shared the privations and sufferings of those soldiers, and permitted neither labor nor danger to stand in the way of their ministrations to those who were cold, and hungry, and weary, and despondent.

"To many of us the public routine work of the Salvation Army has been something strange and grotesque. Sometimes the street corner meetings which all of us have witnessed have brought forth coarse comment from bystanders. But in the future it will be well for any who are prompted to offensive jesting at the expense of the Salvation Army to make sure there are none present who wear, or who have worn, the uniform of the American army, for the sentiment of the American army is tersely set forth in the words of the returned soldier who said: 'I'm for the Salvation Army, good and strong, and I take off my hat to a poke bonnet wherever I see one.'"

OUGHT TO KEEP GOING

The man who puts an ad in the paper one month, skips the next, tries still another paper the next, and waits a year to see what will happen, gets results like a certain old hound they tell about down in Kentucky. It had the stoutest heart, the soundest lungs and the most willing legs in the world. But it couldn't concentrate.

"That dog would start out before sun-up and track a deer. It would go swooping along, giving that animal a run for its money and just when you would expect the deer to be at bay, off would go Mr. Dog after a fox that it just couldn't resist. The fox is some runner, too. And then just when the contest became interesting, Mr. Dog would sniff a rabbit and make off after it. Result was, about sun-down you would see that hound, after a day's hard work, barking like thunder because it had a chipmunk treed."

The advertiser who expects to get returns must realize the need of concentration. Advertising is like the traction hold. The big idea is to get going and keep on. It's the "starts and stops" that eat up time and fuel. Keep going.—Successful Farming.

KEEPING UP WITH MINNESOTA PRESS

Ooh! La! La!

It is predicted that wooden shoes will soon be a common article of foot wear.—LaPorte News.

The above, coupled with the fact that women are already appearing on the streets without stockings, will make "some" combination. Ooh! La! La!

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

The Bible school will meet at 12 noon. The graded system of lessons are used.

The prayer meeting is held every Thursday evening at 8 o'clock. All are cordially invited to these services. E. A. Cooke, minister.

Keeps Off Potato Bugs.

And now comes a prophet, who arises in Missouri, and has published in a number of papers the following news for the especial benefit of those who detest to chase the elusive potato bug: "If a soup bean or two is dropped into each hill of potatoes when they are planted the potato bug will not bother them, and besides your crop of potatoes you will get one of beans as well. There is one farmer who has tried this experiment for five years and has never been bothered with bugs while his neighbors lost their crops. The bugs don't like the smell of the beans for some reason."—Kansas City Times.

But None Came.

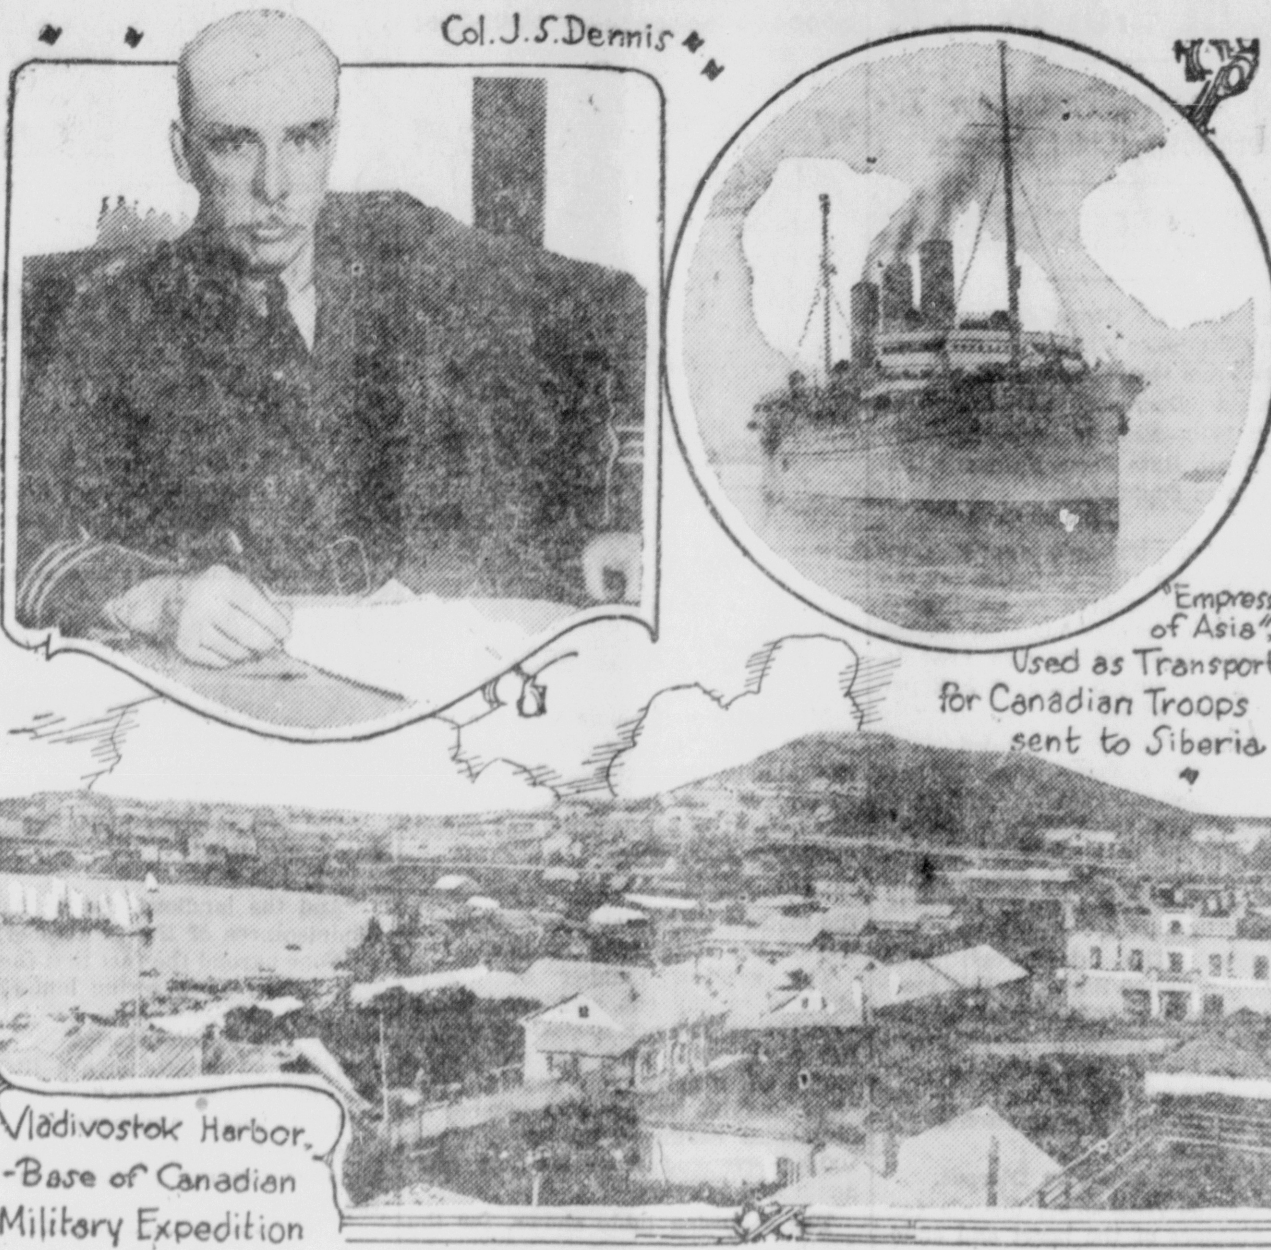

Late the other night on a street car a soldier was going home for the first time. He was happy and proud. And his reason for being proud: there was a wound stripe on his right arm.

One man said to him: "Where were you wounded?" The soldier replied: "I was hit in the back with a piece of shell." The man gave a short laugh and said: "A funny place to get hit; which way were you going?"

It is needless to say that the soldier hit the man and here is what the soldier said: "If there are any more of you fellows thinks that a Yank ever ran, I can change your mind for you."—Indianapolis News.

"SIBERIA THE GREATEST UNDEVELOPED PORTION OF THE GLOBE," SAYS COLONEL J. S. DENNIS

Col. J. S. Dennis

"Siberia is the greatest undeveloped portion of the globe in respect to unoccupied agricultural areas and undeveloped timber and mineral resources. There will be all kinds of openings for industrial and transportation enterprises all over Russia when any stable form of government is established," says Col. J. S. Dennis, Chairman of the Canadian Trade Commission, who has just returned from Siberia.

Colonel Dennis went to Vladivostok with the Canadian Military Expedition as Director of Transportation and Intelligence as well as Chairman of the Trade Commission. He says: "Although the Canadian Trade Com-

mission has made no formal report as yet, I can say that conditions in Siberia are much better than in Eastern Russia, but there is little opportunity for American or Canadian trade over there at the present time. Financial conditions are chaotic, transportation conditions completely upset and the ruble almost valueless.

"Politics is always a delicate subject, particularly there now, but I would like to call attention to the time it took the French to settle down after their revolution and how many years were required for the American nation to become a compact and harmonious mass. People

here do not realize the size of Russia, its population, nor the sudden shift from deepest despotism to personal license.

"Some day the mighty, slumbering peasantry of Russia will arise in wrath. Then will come some sort of constitutional government adapted to their temperament, ideals and national destiny. Already one can feel the first tremors of their awakening. The next three months are full of possibilities."

Colonel Dennis is returning to take up his duties as Chief Commissioner of Colonization and Development of the Canadian Pacific Railway.

SHE UTTERED NO CRITICISM

But Many Will See Deep Significance in That Kiss Bestowed by Minister's Wife.

Now, everyone knows that the minister's wife must not say harsh things about anyone, no matter how she thinks. Also that though she be forced to listen to criticism she herself must not give any. The other evening an Indianapolis paragoness woman was sitting on her front porch, when one of the young girls of her husband's congregation came to call. Hardly had she settled herself comfortably before the young miss began to condemn viciously a very parsimonious member of the church.

"He wouldn't give a cent to recapturing the paragoness," stormed the visitor, "yet he had plenty of money to buy himself a new seven-passenger touring car. I just hope that every time he starts out in it he'll have a puncture."

The minister's wife had only that morning spent three hard hours mending the old carpet. She didn't say a word of reproach—merely looked at the young girl a minute and then went across the veranda and kissed her cheek.—Indianapolis News.

Ticklish Bit of Tunneling.

A very interesting bit of tunneling was recently done on the Fourteenth street tube under the East river, New York. The heading was being run in rock and at one point test holes showed a thickness of only eight inches of sound dry rock above the line along which the top of the tunnel was to run. As the tunnel was being driven without the use of compressed air it was decided to drop the upper heading four feet until this thin cover of rock was passed. The cast iron lining was set in place at each side of this section and then the rock was removed very carefully by using a great many holes each loaded with about one-eighth of a stick of dynamite. As each bit of rock was removed the arch of the tunnel lining was set in place. By this means the dangerous section was tunneled without breaking through the thin shell.—Scientific American.

His Desire.

Last autumn Roland was much in love with his new teacher, and tried to prove his affection by doing many errands for her. One of them was the hauling of the fertilizer from his father's barn to her flower garden.

This spring Roland became interested in a victory garden and started one. One day he journeyed to the home of his last term teacher, told her of his garden and then ended the conversation with, "Do you remember that fertilizer I gave you last fall? Well, I'd like to have it back now for my own garden."

A Georgia Philosopher.

Artemus Simms says the worst thing about being a fool is that others find it out before you do.—Dulton Citizen.

DISPATCH WANT ADS PAY

AMUSEMENTS

GREAT MUSICAL SHOW MAY COME

Efforts Being Made to Include Brainerd in Route of "Oh Baby"

There is a possibility, or even a probability, that Brainerd may have an opportunity of seeing the famous Marcus show in its current girlie-sque extravaganza "Oh Baby" within the next few weeks. Manager F. S. Workman of the Park theatre is now negotiating with Klaw & Erlanger, who have the tour under direction, with a view of playing the attraction. There are several stumbling blocks to be surmounted but Mr. Workman is confident that he will be able to do so.

With the possible exception of Ziegfeld's "Follies" and the New York Winter Garden's annual spectacle, "The Passing Show," there is in America no better known or highly regarded standard attraction purveying mainly liberal peeps at feminine pulchritude.

With this knowledge in mind Mr. Workman proposes to sound out local playgoers with a view to ascertaining whether the engagement would prove profitable. One of the difficulties to be overcome is the demand on the part of the showman of a huge guarantee. Mr. Workman feels that he would like to consult his patrons before undertaking such a large hazard. However, he is sanguine that the poll of his patrons will prove favorable.

"You might as well ask a cat if she likes sweet milk as to ask show fans if they want to see the famous Marcus Show. If local folk don't they will be different than their sisters and brothers in Montreal, Toronto, New York, Chicago, Boston, St. Louis and the other big towns of the country" is the way Mr. Workman puts it. However, he is going ahead to sound out his clientele. The result of the poll will probably determine whether "Oh Baby" will come to Brainerd.

At the Best Tomorrow

"Castles in the Air," the brilliant comedy romance of which May Allison is the star, will be the feature at the Best theatre tomorrow.

In this lively and appealing drama Miss Allison enacts the role of Fortuna, a poor but romantic girl who believes that some day, like the heroines of the lurid novels of which she is fond, she will meet a millionaire and have all the happiness of her namesake.

How she does meet the man of wealth but how her own romance comes from another and quite unexpected quarter, are incidents which

go to make a play of distinction and charm. Fortuna is a lovable little character—a character of the kind in which May Allison excels—and her dreams and expectations, and her eventual happiness, combine to create a picture of winning appeal.

The clever star is surrounded by a notable cast among whom are Ben Wilson, Clarence Burton, Walter I. Percival, Irene Rich, "Mother" Anderson, Viola Dolan and Ruth Maurice. The play was directed by George D. Baker and was adapted from the story by Kate Jordon.

At Best Theatre Tonight

"Flat Gold is black and soft and flat, like coins from the mints of hell. They say it saps men's brains. That is the price they must pay for it."

Into the frozen silences of the Yukon, Dan Burke went in search of adventure and fortune. He found both, but went through Hell first.

A gripping drama of the Yukon where life is in the raw and men fight for gold. A story that equals Jack London's in dramatic punch and the thrill of the Gold country where many have gone mad, eaten snow and died, in a vain search for treasure.

At the Best Monday and Tuesday

In her new character of "True Heart Susie" Lillian Gish has to surrender her greatest asset and dear friend, a cow to which she has become attached. When she goes into the field, the cow approaches, stands contentedly near, sniffs at her shoes, calmly and tenderly licks her face, and otherwise demonstrates her affection. "True Heart Susie" will be shown at the Best theatre next Monday and Tuesday.

While taking the scenes, Miss Gish was so impressed by the friendliness of the cow, that she made it a pet, and when work was over after several days, she bought the animal. It is the first of a herd Miss Gish hopes to have some day, although it may go as a gift to her sister, Dorothy, for it is the first cow Miss Dorothy ever could fondle without disaster.

Nature's Method of Storage.

In lower animals and in savage races nature stores up food for time of famine by converting it into fat. This provision of nature still operates, despite the lack of the necessity for it, among civilized peoples, and the result is corpulence. By substituting fasts for the famines of old, the flesh can be brought to normal with no bad effects.

Daily Thought.

As a vessel is known by the sound, whether it be cracked or not, so men are proved by their speeches, whether they be wise or foolish.—Demosthenes.

BRAINERD TO HAVE NEW STUDIO

Anderson Studio Removes From Opsahl Block to the Anna Block at 622 Front Street

TO BE GROUND FLOOR STUDIO

F. R. N. Anderson Recently Home From War Service, Was Sergeant in Artillery Corps

The Anderson Studio, formerly in the Opsahl block, has established its new place of business in the Anna block at 622 Front street. The Andersons have been very successful in business here and decided to establish a ground floor studio in order to handle their growing business to the advantage and convenience of the public.

They are a very energetic young couple giving the public first class photos and good service which, together with their pleasing personality, has enabled them to build up a splendid business.

Mr. Anderson recently returned from a year of active service overseas, having been a sergeant in the artillery corps in action at St. Mihiel, the Meuse, and the Argonne forest drives and still at the front when the armistice was signed.

Mrs. Anderson is a specialist in child photography and located here a year ago, leasing the Opsahl studio at that time. She came direct from San Francisco when her husband left for France.

Their new studio will be furnished with the latest and most modern equipment and the public can be assured of the best of work and service.

POULTRY DEMONSTRATION AT LITTLE FALLS

There is to be a poultry demonstration at Little Falls August 19th at which N. E. Chapman and K. A. Kirkpatrick of the University Farm are to meet with the poultry men of this section of the state. Several of the poultrymen in the vicinity of Little Falls have arranged to bring their flocks into town for this demonstration which is to be largely a culling and judging demonstration.

If any of the poultrymen of Crow Wing county are interested in attending this meeting or interested in the poultry improvement of the county, they should call or write the county agricultural agent at the Farm Bureau Office in the Iron Exchange building in Brainerd. Those interested should make it a point to arrange for this meeting at the earliest convenience and have plenty of suggestions and ideas for the better improvement of the poultry flocks in the county.

WEST TO SEE JOHN

117 Year Indian and Cass Lake Pageant to Make Bow to Colorado

Old John Smith, Chippewa Indian, claimed to have passed one hundred and seventeen summers and as many winters and who was the star actor in Fred Lincoln's Cass Lake Pageant film, will make his bow to thousands of moving picture fans of the state of Colorado soon.

Mr. Lincoln has succeeded in placing the film for exhibition at the Colorado State Fair and Denver Stock Show, Denver Colorado and also at the Wyoming State Fair. It will be shown under the auspices of the United States Department of Agriculture, Forest Service on or about September 9th; four days in each place mentioned and before thousands of people.

He has also arranged to exhibit the picture in southern Michigan cities where he has a wide acquaintance as a publicity man and has opened correspondence with Madison, Wisconsin parties with an idea of having it exhibited under the auspices of the department of the University of Wisconsin.

The film is exhibited for educational purposes and with an idea of showing, in an interesting manner, the remarkable development of Northern Minnesota in a hundred years and its evolution from the primitive to an agricultural and summer-vacation paradise.

The practicability of the idea of the promoters of this film is thus being thoroughly demonstrated by the fact that it will be exhibited at the places mentioned and before such large and interested audiences as are assured. That substantial returns from this means of advertising will eventually be obtained is assured and the N. M. D. A. is being freely congratulated on its enterprise.

IT PAYS TO ADVERTISE

SHOPMEN STATEMENT, STAY OUT AT PRESENT

The following statement was made by committeemen of the shopmen's crafts at their headquarters in Trades & Labor hall. "Men at Brainerd and under jurisdiction of the local strike committee are out on strike and will remain out until their original demands are complied with or they are given definite assurance that such terms will be complied with."

The Dispatch has been given the following circular letter by O. H. Oelwein, secretary of the Brainerd Federation of Shop Crafts committee and it is published:

To the officers and members of Affiliated shop crafts:

Brothers Greeting:

The undersigned chairmen feel that at this critical moment, a brief circular letter should be sent to all points.

We have received messages from all along the different railroads which comprise our district to the effect that over 75% of the men have left work.

Prior to the men taking this action, your general chairman, of necessity, had to request that you remain at work but since the men have taken a definite stand we are justified to state that we will be governed by the action of the men and will endeavor to co-operate with the general strike committee and assist them in making this strike as effective as possible. For your information the following points are out on strike as we have been officially notified by them:

Michigan—Ironwood.

Wisconsin—Spooner, Altoona, Fond du Lac, Itasca, Superior, Hudson, Ashland.

Iowa—Sioux City, Fort Dodge.

Minnesota—St. Paul, Minneapolis, Willmar, St. James, Bemidji, Duluth, Proctor, Two Harbors, Winona, Brainerd, Cass Lake, Staples.

North Dakota—Minot, Jamestown.

South Dakota—Sioux Falls.

Idaho—Sandpoint.

Montana—Great Falls, Cut Bann, Butte, Livingston, Wolf Point, Whitefish, Bowdoin, Helena, Billings, Havre, Glendive.

Washington—Spokane, Seattle, Leavenworth, Everett, Goldbar, Millard, Pasco.

The strike situation has become very grave and as we still are not in a position to order the men out, we are conveying this information to you to take such action as you deem necessary.

W. A. PARRANTO, Gen. Chairman, Boilermakers, JOHN WILLIAMS, Gen'l. Chairman, Carmen N. P. System.

S. L. GIPPLE, Gen'l. Chairman, Dist. No. 1 Carmen.

F. H. WEIBEL, Business Agent, Blacksmiths, ARTHUR CORRIGAN, Gen'l. Chairman, Sheet Metal Workers.

E. L. DITTBRENNER, Vice Chairman, G. N. System Carmen.

M. ADAMS, Business Agent, Dist. 32, Machinists.

O. H. OELWEIN, Sec'y, Local Federation.

STRIKE OF MINERS AT WOODROW UNUSUAL

Woodrow, Minn., Aug. 9—An unusual strike with complications is on at the Omaha mine at Woodrow.

Tuesday morning the men worked half a day and then went out demanding higher wages. Later some wanted to go back, but a broken gear on machinery precluded hiring men. Then the government stopped shipments of iron ore and there was no chance to work. Stockpiling was discontinued as the trestles must be moved and ore shipped out before more ore can be hoisted. The stockpile at present contains 20,000 tons. The mine has been shipping 10,000 tons a month.

LITTLE FALLS MEN IN SHOPMEN STRIKE

Little Falls, Minn., Aug. 9—Al McGregor and R. J. Sutliff, car repair men at the Little Falls station, received orders today at 10 o'clock to quit work. They belong to the Staples branch of the shopmen's union.

BIDS WANTED

Close August 16th, 1919, at 8:00 P. M. Motley, Minn.

Scaled bids will be received at the office of the Superintendent of Schools at Motley, Minnesota, for labor and material necessary for finishing the new High School assembly room, in accordance with the plans and specifications on file at said office. The Board of Education reserves the right to reject any or all bids.

NOTICE

As my wife Hazel M. Welch, has left me, and has brought suit for a divorce, I will not be responsible for any bills she may contract from this date.

HERBERT C. WELCH.

OUTDOOR WORSHIP AT PARK AND SCHOOL

Weather Today Gives Promise of Being Perfect for Services to be Held Sunday Night

REV. HANS WOLNER TO SPEAK

Will be But Four More Park Services This Season—South Side Held at High School

The weather today gives promise of being perfect for the park services Sunday night. Rev. Hans J. Wolner, who has been such a consistent, untiring worker for these meetings, will be the speaker at Gregory park. Mr. Wolner has had very close attention whenever he has been heard in these services. He has a virile message and doubtless will have a good hearing.

Rev. Hans J. Wolner's sermon topic will be "The Wall Between." Rev. E. A. Cooke will be the leader.

Four More Services.

There will be but four more of these park services this season. The innovation was an experiment that has proven to be the most successful manner of conducting Sunday evening services that has yet been tried. The people have enjoyed the out-of-doors and the churches have been drawn together in the union efforts. This is but the first of a number of concerted efforts for the good of the community that the churches are actively engaged in working out at the present time.

South Side.

In Brainerd's south side meetings are held at the high school grounds, chairs being placed on the walk near the entrance of the building. Ample shaded, cool and refreshing, the location has proved an ideal one for outdoor worship.

FEDERAL OFFICERS ARE AFTER STILLS

Two Members of the U. S. District Attorney's and U. S. Marshal Arrive in the City

CONFISCATED CARS TO BE SOLD

Four Flivvers and an Oakland Will be Sold at the Postoffice on Monday Morning

Two members of the U. S. District Attorney's force and a United States marshal have arrived in Brainerd. Rumor has it they are looking for stills.

Others assert the assistant U. S. district attorneys, J. M. Dickey and W. B. Anderson and U. S. Marshal Joseph A. Wessell of St. Paul, are here to look over several flivvers and an Oakland which will be disposed of at public auction by the marshal and his assistants Monday morning at 11 o'clock at the postoffice.

Let Congress Do It

(By United Press)

Washington, Aug. 9—The president may hand the high cost of living problem over to congress, at least for the time being, and will turn his attention today to plan for his tour of the United States. It was believed however, that he would touch on the high cost of living in his speeches.

In his address to congress yesterday the president said there can be no less prices until there is peace. He is expected to use this argument in his campaign.

Restore Monarchy, Re-unite Austria-Hungary

(By United Press)

Rome, Aug. 9—Doubtless Arch Duke Joseph intends to restore the monarchy in Hungary, according to the Popolo Romano. The paper believes an effort will be made to form a union of Austria-Hungary, Proctora and Slovenia will follow them as Joseph's first step toward the re-instatement of Austria-Hungary state.

ROLL OF HONOR

Lawrence Clark and Louis Bergreen who went to the front together and were in service 18 months, participating in many battles, returned home together. This is one of the few instances in Brainerd where comrades at home were comrades in war service.

Father's Way of Economizing.

As a general thing, father's favorite way of economizing is to stop the children from spending.—Dallas News.

BEMIDJI MOVED TO ACTION ON CARNIVALS

New Ordinance Drawn Licensing Carnivals \$200 First Day, \$100 Each Day After

RADICAL CHANGES ARE DRASTIC

Purpose of Ordinance is to Eliminate Cheap Circuses and Carnival Companies

Radical changes will be made in Bemidji's license regulations if a pending ordinance passes. It seems the town was driven to action following a visit of a carnival company which recently visited Brainerd.

Carnivals, circuses and shows of all kinds not showing in a licensed theater will be hard hit and house-to-house canvassers of goods, wares and merchandise will be asked to pay \$50 a day for licenses.

The purpose of the ordinance is to eliminate cheap circuses and carnivals and to protect the citizens against fake peddlers. Under the proposed ordinance circuses and carnivals are classified and will be licensed according to class. A small circus for which an admission fee of more than 25 cents is charged will be required to pay a license fee of \$100. Minstrel shows, concerts and theatrical exhibitions of any kind will be required to pay \$50 for each day of operation. A circus with no menagerie will be required to pay \$100 for the first day and \$50 for each additional day.

Menagerie Without Circus

A menagerie alone which makes an admission charge of not more than 25 cents will be required to pay a license fee of \$100 for the first day and \$50 for each succeeding day. A combined circus and menagerie, for which an admission fee of more than 25 cents is charged, will pay a license of \$200 for the first day and \$100 for each succeeding day. Combined circuses and menageries, which charge an admission fee of 25 cents or less, will be required to pay a license fee of \$100. Carnivals and small shows will pay \$200 for the first day and \$100 for each succeeding day. A provision has been made in the ordinance for shows not specified and license fees of \$100 and \$50 will be paid. Musicians, magicians, ventriloquists and other transient entertainers will have to pay license fees of \$50 and \$25 unless they appear at a licensed theatre. Hawkers, criers and peddlers who canvass from house to house will be required to pay a license of \$50 a day.

ROSEN RYE

By E. G. ROTH
(County Agricultural Agent)

Last year the Michigan rye known as Rosen rye was tried out for the first time in Crow Wing county by ten of our leading farmers, and the results are that their crop this year seems to justify the growing of this rye on a large scale in the county.

In every case where this rye has been grown a larger yield than the common black rye has been secured and those fields have already been threshed and yielded in some cases double or triple that of the common black rye that has been grown in a field beside it. So much interest has been shown by the neighbors of the growers of this rye that already their available seed has been spoken for by them.

Throughout the states of Michigan, Wisconsin and Minnesota Rosen rye has been proven a much heavier yielder than common black rye averaging twelve bushels per acre more while in many instances the yield of Rosen rye is double that of the common rye. The Farm Bureau will arrange to secure some of this rye for many of the growers who desire it and rye growers who wish it should let their wants be known at once in order to secure it for this fall planting.

ACTORS' WALKOUT CLOSES THIRTEEN GOTHAM HOUSES

Leading Successes of Season Closed to 15,000 Persons When Players Strike

New York, Aug. 8—Thirteen of New York's "leading theaters" were closed last night by an actors' strike, called an hour before the curtains were to go up, by the Actors' Equity association.

More than 15,000 persons, including many who have braved the Brooklyn car strike in order to reach the theaters, were disappointed. In most cases the suspension of performances was announced from the stage after managers had waited from 15 to 30 minutes to see whether the actors would put in an appearance.

Optimistic Thought.
Temperance is the moderating of one's desires in obedience to reason.

SALVATION ARMY DRIVE SOON

(Continued from page 1)

pumpkin and lemon pies, but so skilled was she in her culinary art and such fragrant odors always emanated from the baking equipment set out practically in the open, that she was never able to accumulate a reserve stock, but every evening found her hut entirely cleaned out of doughnuts or pies.

Line Mile Long.

The line in waiting to be served doughnuts or pie and coffee was invariably a mile or more long. No need to tell anybody in the sector when she was baking. The stove and equipment in a tarpaper shack might be termed to be enclosed, but nobody could ever harness the smell of the doughnuts and pies which made the mouths of the doughboys water.

At the Hermitage.

From the Toul sector she went to the "Hermitage" at St. Mihiel. She was attached to the 89th Division at the time of the drive into German territory. When the armistice was signed she was just two kilometers from the German boundary.

The Rations.

Three doughnuts and a cup of coffee to the man was the ration served. Men in trenches were served first and free. On July 14 Capt. Saunders sailed home from Brest to New York and later arrived in Minneapolis and in Brainerd last week.

Praised Doughboys

Captain Saunders is especially enthusiastic about the actions and spirit of the American doughboys. She has had opportunity to be with them under most trying conditions and she claims that never once did they fail to live up to her ideal of an American gentleman.

"Each soldier seemed to feel personally responsible for her comfort and safety," said Captain Saunders. "For four months another Salvation Army lassie and I lived in woods on the Toul sector which were literally alive with enemy artillery fire. Often we had several thousand men to keep cheered up and to keep filled with doughnuts. These men were worth serving because they were so truly appreciative."

Miss Saunders went into Germany with the American forces and stayed there for three months. After the armistice was signed, she and her companion went on a trip into the trenches and No Man's Land. They climbed a high hill which proved to be Hill 749 on which the last battle had been fought two days before.

"Oh, I wouldn't take anything for the experience I had over there," said Captain Saunders. "But I'm like the boys who return, I am restless now that I am back to ordinary life."

Miss Saunders will help with the Salvation Army Home Service campaign which is to be staged in Minnesota August 10 to 18th and in the Dakotas the last half of September. She has not been discharged from war time service and will return to national headquarters for her future assignment following her campaign efforts in Minnesota, North and South Dakota.

County Quota.

The county quota in the Salvation Army drive is \$6,800, to which if raised the Salvation Army headquarters will add enough to make a \$10,000 fund.

Brainerd's Quota.

Brainerd's quota has been placed at \$4,500 with Mayor F. E. Little as city chairman. D. D. Schrader is in charge of outlying districts. Fred L. Sanborn, Exalted Ruler of the Brainerd Elks lodge, is in charge of the county drive.

Cuyuna Range Defense League.

The Cuyuna Range Defense League, formed to aid worthy projects from war activities to peace pursuits, it is believed, will make a handsome donation for the range section.

CONVENTION ON WHEELS FOR NATIONAL EDITORS

(By United Press)

Portland, Ore., Aug. 8—Three hundred members of the National Editorial association arrived here today on a special train, and during the next two days Portland will be the scene of the association's annual convention.

The "convention on wheels" as it has been called, left Chicago July 26, proceeding through Canada and stopping at Winnipeg, Edmonton and Vancouver.

The editors will go to Oregon City, Ore., tomorrow, where the officers of the association will officiate at the unveiling of a monument commemorating the establishment of the first newspaper on the Pacific coast.

Leaving Portland Sunday the "convention on wheels" will go to Medford, Ore., whence Medfordites will take the entire party in automobiles on a two-day trip through Crater Lake national park.

Returning to Portland, the newspapermen will journey on their special train to Tacoma Wednesday and visit Rainier national park. A business session will be held in Tacoma the following day. Seattle will be the scene of another business meeting Friday. Victoria, B. C., will be reached Sunday and the final business session of the convention will be held there the next day. The return trip to Chicago is to be started from Vancouver, B. C., Aug. 19.

FOUND—Hat. Claim, pay ad 15c. Dispatch. 7078-5713

MINNEAPOLIS SAVINGS INCREASE ONE MILLION

During First Month of Prohibition Deposits Increase Nearly 100 Per Cent

More than 1,000,000 increase in savings deposits is the record among savings banks and trust companies of the city at the end of the first month of prohibition, as compared with July, 1918. Statements of Minneapolis savings bank and trust company officials show a gain of nearly 100 per cent in the number of new depositors over the number added in any month before the advent of national prohibition.

UMPIRE O'DAY RANKLES REDS

Squelches Cincinnati Players on Bench When They Question Some of His Decisions.

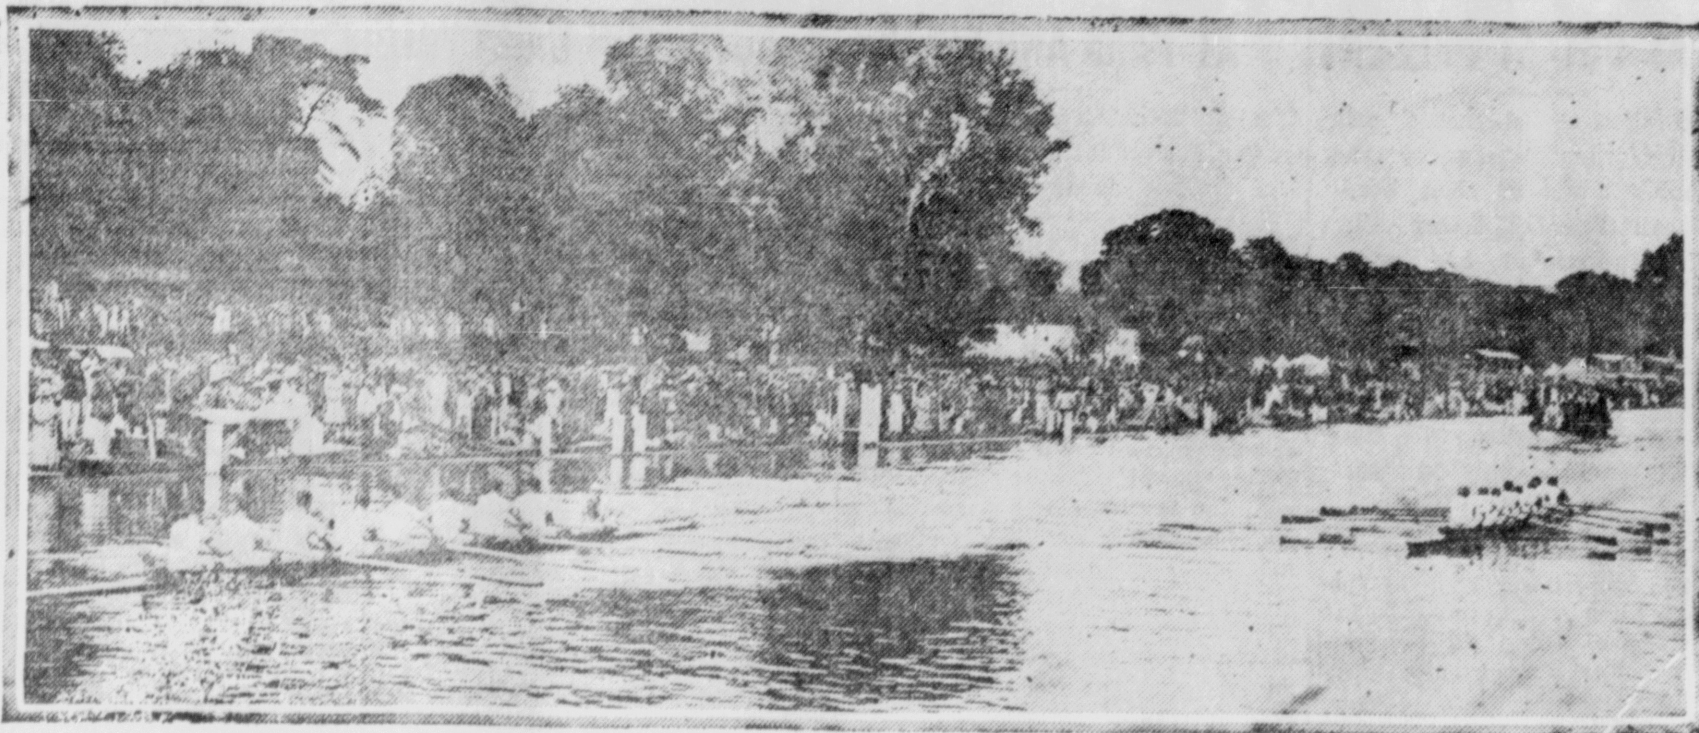

Those who set out to kid Hank O'Day take upon themselves a man's job, for the veteran umpire always retains a firm grasp on his goat and usually is able to silence his critics with a few well-chosen words. At one stage of a recent game at the Polo grounds the players on the Cincinnati bench began to cast aspersions on Hank's judgment of strikes and balls, but they were stopped short. Holding up the game for an instant, O'Day turned to the Reds' dugout and said, with just a tinge of sarcasm in his voice: "If you guys can call 'em any better than I can come out here and try it. It seems to me that if your eyesight was as good as you seem to think, you'd be in the game with the regular players instead of sitting on the bench."

Whereat silence hung like a pall over the visitors' rendezvous.

Altogether Too Much Haste.

"What's your grudge against Judge Wombat?" "Too hasty, too hasty. Gives a man no time to prepare his cases. Case of mine has been on the docket only ten years and he insists on my going to trial."—Memphis Appeal.

Oxford Crew Beating American Army Eight in King's Cup Regatta at Henley

America's crew of picked army men failed to win their way to the finals in the regatta held recently at Henley for the King's Cup. This photograph shows the representatives of the United States being eliminated in a heat with the Oxford University eight. The English collegians won by a length and a quarter.

SPORTS

BRAINERD AT IRONTON SUNDAY

Pennant Winners to Battle With Strongest Team of the Range at Ironton Grounds

PATTERSON ON FOR LOCALS

Clemmens and McGarry Battery for Ironton—Good Game Promised the Fans

Many Brainerd fans will motor to Ironton Sunday to see Brainerd, the pennant winners, play the range team.

In addition it will be about the last game of Patterson, unless the series with Stillwater is arranged. Patterson, by his uniformly fine pitching, has endeared himself to the heart of every Brainerd fan. It is a positive pleasure to see him pitch and field.

For Ironton Clemmens and McGarry are expected to be the battery team. Wolff is playing with Ironton and the whole team is one right on its toes and determined to defeat Brainerd.

BASEBALL STORIES

Oklahoma City added a new pitcher to its staff in Yonkman, who got away good for a starter.

Pitcher Turkey Boman is out of the army at last and rejoined the Little Rock Travelers the other day.

Ellis Johnson, former pitcher for the Philadelphia Athletics, recently out of the army, joined Baltimore.

Before the Chicago Cubs got Lee Magee from Brooklyn, Manager Mitchell tried to deal for John Rawlings of the Braves.

Memphis announced the release of Catcher Gil Meyers, but changed its mind and the young collegian was told he could stay on.

Rube Marquard is not coming on so well with his broken leg and it is doubtful that he will pitch another game this season.

Jack Dunn says that his best bet of several seasons in the way of finds is Roley, the youngster playing short stop for the Orioles.

Sothoron is pitching the game of his career. His control is perfect and he seldom gives a good hitter a good ball unless he is forced to do so.

There is another new Johnson in the pitching arena. He has joined the Columbus team. His identity is not quite clear, as he is described as "a youngster just returned from France."

Walter Golvin has succeeded Soldier Brown as first baseman for the Mobile team. Golvin seems to have suffered no ill effects from his long service in the north of Russia.

Kid Gleason is quoted as praising Dick Kerr with qualifications. The Kid says Kerr has everything but height, but he is three inches shy of what a real, honest-to-goodness pitcher should be.

Young Unglaub, nephew of the veteran Bob Unglaub, now dead, seems to be a find from Petersburg. He fanned 14 batters in the first game he pitched, and the next time out pitched a two-hit game.

The Father of Baseball

The father of baseball was Abner Doubleday, who was born at Ballston Spa, N. Y., 100 years ago, and died in Mendham, N. J., in 1893. He was a distinguished general of the union army in the civil war, but his greatest claim to fame is as the inventor of America's favorite pastime. It was while a student at Cooperstown, N. Y., that he originated the game to which the name of baseball was given, and was an adaption and development of the older sports of "rounder" and "townball."

The crude pastime contrived by Doubleday was further developed by Alexander J. Cartwright, one of his young associates, who invented the "diamond" and in 1845 helped to draft the first rules. In 1846 the first match game between regular clubs was played in Hoboken, N. J., two New York teams contesting.

The first baseball association, an amateur organization, was launched in 1857, and in the same year Henry Chadwick, who shares with General Doubleday the title of "father of baseball," published the first official rule book. The first regular baseball plant was built in Brooklyn in 1862.

A. J. Reach was the first professional ball player, having been hired by the Philadelphia Athletics, who lured him away from Brooklyn in 1864. The first all professional club

was the Cincinnati Red Stockings of 1869, and the first professional circuit, the National association, was launched in 1871, becoming the National league in 1876. The first minor league, called the International, started in 1871.

GIANTS PLAYING OLD SYSTEM

Number of Pennants Won by Red Sox by Trimming Main Rivals—McGraw Doing Same Thing.

The Red Sox won a number of pennants by trimming their main rivals—the Tigers and White Sox—consistently.

They might blow a few ignoble pastimes to others, including second division clubs, but when they struck these two teams they struck with winning force.

The Giants have adopted much the same system this season in regard to the Cubs. McGraw has always figured Chicago the team he had to beat. Cincinnati may cross him in regard to this conclusion, but that is the way he had it doped out. The Cubs are not out of it by any means, but they can hardly hope to beat the Giants out as long as the Giants insist on tearing them apart each time they meet when a victory brings a double reward in the percentage column, lifting one club as it pushes the other down.

Infield to Blame

The Walker base ball team has participated at two base ball games played on the home grounds the past week. One game was played here with the Backus team last Friday night and the result in a defeat for the Walker boys by a score of 10 to 4. The other game was played here Sunday with the Brainerd Speedwells and was a victory for the Brainerd boys by a score of 8 to 6. Some excuse should certainly be forthcoming for the brand of base ball put up by the Walker team in these games but there apparently is none unless it be the constant haphazard shifting about of the players on the Walker infield.—Cass County Pioneer.

BROWN SIGNS TWO PITCHERS

Manager of Terre Haute Team Gets Two Hurlers to Bolster Weakened Pitching Staff.

Hope of bolstering the weakening pitching staff, Manager Brown of Terre Haute has signed two promising semipro pitchers, William Rantz and W. H. Jensen. The latter has been winning slabbman with the Wesleyan college team.

IT PAYS TO ADVERTISE

"Gee-Whiz! How it Hurts!" —The Pain in My Foot!"

"Sometimes it is in my arm. Merciful Heaven, how my back hurts in the morning!" It's all due to an overabundance of that poison called uric acid. The kidneys are not able to get rid of it. Such conditions you can readily overcome, and prolong life by taking the advice of Dr. Pierce, which is "keep the kidneys in good order."

"Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably hot water, before meals, and drive the uric acid out of the system by taking Anuric." This can be obtained at almost any drug store.

Send a bottle of water to the chemist at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and you will receive free medical advice as to whether the kidneys are affected. When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or twinges and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night, take heed, before too late. Get Anuric (anti-uric-acid), for it will put new life into your kidneys and your entire system. Ask your nearest druggist for it or send Dr. Pierce ten cents for trial package.

GETS POSITION THEN GRADUATES

Miss Ellen Andersen, who went from Fargo High School to the Dakota Business College for a Secretarial Course, accepted a position with the Fargo Implement Co. before graduating.

Miss Mary Dunn, another student of this College was recently placed with the Buckbee Mears Co. as stenographer.

Thus do ambitious young people better themselves by securing proper training to fill lucrative positions in the business world.

For information about Business Courses, address F. L. Watkins, 806 Front St., Fargo, N. D.

THE COMFORTS of the American Home

It is a well-known fact that, home for home, the American household has more comforts and conveniences than that of any other nation.

In foreign lands the modernized dwelling is found only in the better sections of the larger cities.

In America, even in remote rural districts, you find the piano, the vacuum cleaner, washing machines, up-to-date heating systems, telephones and numberless electrical appliances.

There is a well-kept look about residence, store or out-buildings with an atmosphere of prosperity and content.

Did you ever stop to realize why this is so; how the condition was brought about?

It is largely due to advertising. And a big share of the credit belongs to newspaper advertising.

Stop and think how many of the foods you eat, the things you wear and other articles entering into your everyday life, you first heard of through newspaper advertisements.

You will then realize what a part they do play, or should play, in your daily life.

Read the advertisements, in the newspapers regularly and thoroughly, if you are not already doing so. They mean more to you than you can tell.
